

Spring 1 - Year 3

Science

In science we have thoroughly enjoyed our work around forces and magnets. We have loved using magnets to carry out various experiments around magnetic fields and magnetic materials. (I think the children's faces tell you everything else you need to know!)

PESSPA

We have now completed our swimming sessions for this year. Throughout our sessions we have not only learnt essential swimming skills but also how to keep ourselves safe in the water. Lots of us have overcome many challenges and demonstrated the spirit of the games by developing our self-belief, determination and teamwork skills just to name a few! We also loved our PESSPA session when the snow arrived, we played a game of snow dodgeball and loved throwing them at Miss Whalley too!

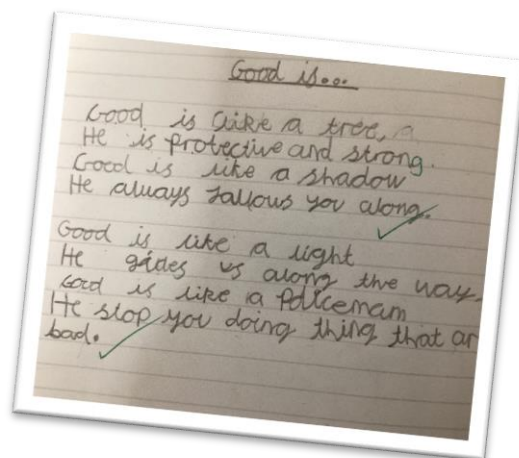

English

In English we have learnt the poem 'why did you come here?' by Tina Graves. We worked in teams to learn the poem by heart with actions and then created a final class version to perform at Education Sunday. We also took inspiration from Tina Graves poem to write our own versions.

RE

In RE, we have been thinking about what people believe about God. We have explored our own spirituality and have created poetry and artwork to express our beliefs.

What a fabulous term you've had Year 3.
Keep up the hard work, we are so proud of you!
Well done!
