

Spring 2 - Year 1 Highlights

It has been another very busy half term in Year 1!

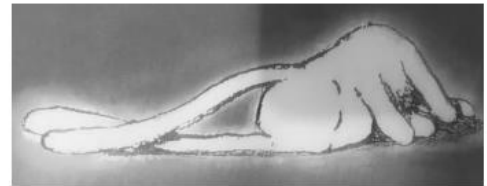

This half term we celebrated World Book Day! Our theme this year was 'The Colour Monster'. As the book is all about mental health, we focused on the 'Five Ways to Wellbeing' and linked our activities to this. For example, we took part in a refreshing yoga session, used our art skills to create puppet monsters and invited Y5 to come and read with the children. We came to school dressed as colour or a monster and there were plenty of creative outfits!

In **English** we have been focusing on our

book as
hook
'Beegu'.
Beegu left
us many
clues
around
school and
in the
classroom
to try and
find out
who they
were. The

children were very excited when Mrs Draper brought some CCTV images of Beegu wandering around our school! She crash landed at Bedford Hall in her spaceship. We have been using our writing skills to create some amazing pieces such as character descriptions, writing postcards in the first person/past tense and using our senses to write some super sentences.

In **Design and Technology**, we have designed and created a moving underwater picture with a slider and lever mechanism. We have used different media to make our final piece, for example water colour for our background, tissue paper for our seaweed, sand for our base and oil pastels for our rocks and coral.

Science

This half term we have been learning about the human body, in particular the five senses: sight, hearing, touch, taste and smell. We took part in lots of exciting investigations to explore our senses! We have really enjoyed this topic.

Well done on yet another fantastic term Year One!
Enjoy your Easter break.
